

Youth and Ethic Education – a one day dialog in Prague, Czech Republic

"Now that we have learned to fly in the air like birds and dive in the sea like fish, only one thing remains – to learn to live on earth like humans." --George Bernard Shaw

The main objective of the conference is to answer the question: "What is ethics and how can it grow and develop in children, and in people in general." The conference will examine this from various perspectives, including an exploration of "ethical education" as a formal subject in schools. The planned outcome of the conference is a strengthening of the awareness, in youth and the general public alike, of the field of ethics and its practical applications:

- Ethical Values
- Physical Health
- Family Life
- Spiritual Dimension of the Human
- Economic Values
- Protection of the Nature and Environment
- Search for Truth and Goodness as a Part of Human Nature

Organized by the Sri Swami Madhavananda World Peace Council, the Youth Union of Yoga in Daily Life, the National Agency for European Educational Programs, and the Yoga in Daily Life Society
